

INDEX

Volume IV, February 1967 to November 1967

- No. 1 (Feb. 1967), pp. 1-124
No. 2 (May 1967), pp. 125-312
No. 3 (Aug. 1967), pp. 313-366
No. 4 (Nov. 1967), pp. 367-

AUTHOR INDEX

- ALLAS, LEO. Discussion of Design and performance of earthwork and foundations for the Squaw Rapids development (Klohn), 302
- BARSVARY, A. K. *See* Stermac, A. G.
- BAZETT, D. J. Discussion of Portage Mountain dam, II (Morgan and Harris), 178
- BEREDUGO, Y. O. Reply to An experimental study of the load distribution in pile groups in sand, 356
- BROOKER, ELMER W. Discussion of Compressibility and crushing of granular soil in anisotropic triaxial compression (Lee & Farhoomand), 92
- BROOKER, ELMER W. Discussion of Experience with some vibrating wire instruments (Scott & Kilgour), 121
- BROOKER, ELMER W. Strain energy and the behaviour of overconsolidated soils, 326
- BROSCOE, A. J. Discussion of Compressibility and crushing of granular soil in anisotropic triaxial compression (Lee & Farhoomand), 88
- CAMPBELL, DOUGLAS D. Discussion of Portage Mountain dam, II (Morgan and Harris), 172
- CONLON, ROBERT J., and MACDONALD, DONALD H. The Manicouagan 2 upstream cofferdam, 229; reply, 242
- CRAWFORD, C. B., and EDEN, W. J. Discussion of The performance of an embankment on a deep deposit of varved clay (Stermac *et al.*), 63
- CRAWFORD, C. B., and JARRETT, P. M. Discussion of Landslide on the Toul-noustouc river, Quebec (Conlon), 409
- DUSSAULT, RÉMY. Discussion of Portage Mountain dam, I (Ripley), 138
- EDEN, W. J. *See* Crawford, C. B.
- FARHOOMAND, IRAJ. *See* Lee, Kenneth E.
- FERGUSON, J. M. Discussion of Design and performance of earthwork and foundations for the Squaw Rapids development (Klohn), 307
- FINN, W. D. LIAM. Static and seismic behaviour of an earth dam, 28; reply, 44
- GADSBY, J. W. Discussion of The Manicouagan 2 upstream cofferdam (Conlon & MacDonald), 239
- GORDON, BERNARD B., and MILLER, ROBERT K. Discussion of Portage Mountain dam, III (Low and Lyell), 222
- HANNA, T. H. Discussion of An experimental study of the load distribution in pile groups in sand (Beredugo), 355
- HANNA, T. H. The measurement of pore water pressures adjacent to a driven pile, 313
- HARRIS, M. C. *See* Morgan, G. C.
- HILLIS, S. F. Discussion of Compressibility and crushing of granular soil in anisotropic triaxial compression (Lee & Farhoomand), 90
- HILLIS, S. F., and SKERMER, N. A. Discussion of Static and seismic behaviour of an earth dam (Finn), 39
- HILLIS, S. F., and SMITH, D. Discussion of Portage Mountain dam, II (Morgan and Harris), 175
- HOLUBEC, IGOR. Discussion of Compressibility and crushing of granular soil in anisotropic triaxial compression (Lee & Farhoomand), 93
- Holubec, I. *See* Poorooshasb, H. B.
- INSLEY, ALAN E. Closure to A study of a large compacted clay embankment-fill failure, 347
- INSLEY, A. E. Discussion of Compressibility and crushing of granular soil in anisotropic triaxial compression (Lee & Farhoomand), 89
- JARRETT, P. A. *See* Crawford, C. B.

- KILGOUR, J. *See* Scott, J. D.
- KLOHN, EARLE J. Design and performance of earthwork and foundations for the Squaw Rapids development, 244; reply, 308
- KOZICKI, P. *See* Matich, M. A. J.
- LADANYI, B. Discussion of Compressibility and crushing of granular soil in anisotropic triaxial compression (Lee & Farhoomand), 87
- LEE, KENNETH E., and FARHOOMAND, IRAJ. Compressibility and crushing of granular soil in anisotropic triaxial compression, 68; reply, 98
- LO, K. Y. *See* Stermac, A. G.
- LO, M. B. An experimental study of the load distribution in pile groups in sand (Beredugo), 353
- LONG, D. H., and SMITH, G. A. Discussion of Portage Mountain dam, III (Low and Lyell), 221
- LOW, W. I., and LYEEL, A. P. Portage Mountain dam: III; Development of construction control, 184; reply, 225
- LYELL, A. P. *See* Low, W. I.
- MACDONALD, DONALD H. *See* Conlon, Robert J.
- MATICH, M. A. J., and KOZICKI, P. Some load tests on drilled cast-in-place concrete caissons, 367
- MEEHAN, RICHARD L. The uselessness of elephants in compacting till, 358
- MEYERHOF, G. G. Review of Szechy, *The Art of Tunnelling*, 411
- MILLER, ROBERT K. *See* Gordon, Bernard B.
- MORGAN, G. C., and HARRIS, M. C. Portage Mountain dam, II: Materials, 142; reply, 181
- NUSSBAUM, HERBERT. Discussion of Compressibility and crushing of granular soil in anisotropic triaxial compression (Lee & Farhoomand), 96
- NUSSBAUM, HERBERT. Discussion of Design and performance of earthwork and foundations for the Squaw Rapids development (Klohn), 304
- NUSSBAUM, HERBERT. Discussion of Static and Seismic behaviour of an earth dam (Finn), 38
- OSLER, J. C. The influence of depth of frost penetration on the frost susceptibility of soils, 334
- OTTESEN, J. P. Discussion of Portage Mountain dam, III (Low and Lyell), 217
- PECK, RALPH B. Discussion of Portage Mountain dam, II (Morgan and Harris), 166
- PENNER, E. Heaving pressure in soils during unidirectional freezing, 398
- PETERSON, R. Discussion of Design and performance of earthwork and foundations in the Squaw Rapids development (Klohn), 306
- PETERSON, R. Discussion of Static and seismic behaviour of an earth dam (Finn), 42
- POOROOSHASB, H. B., HOLUBEC, I. and SHERBOURNE, A. N. Yielding and flow of sand in triaxial compression, II and III, 376
- QUIGLEY, R. M., and THOMSON, C. D. Reply to The fabric of anisotropically consolidated sensitive marine clay, 349
- RAYMOND, GERALD P. Discussion of The performance of an embankment on a deep deposit of varved clay (Stermac *et al.*), 61
- READSHAW, E. E. Discussion of The performance of an embankment on a deep deposit of varved clay (Stermac *et al.*), 65
- RINGHEIM, A. S. Discussion of Portage Mountain dam, III (Low and Lyell), 219
- RIPLEY, CHARLES F. Portage Mountain dam, I: An outline of the project, 125; reply, 140
- SCOTT, J. D., and KILGOUR, J. Experience with some vibrating wire instruments, 100; reply, 122
- SEED, H. BOLTON. Earthquake-resistant design of earth dams, 1
- SHERBOURNE, A. N. *See* Poorooshasb, H. B.
- SINGH, R. B. *See* Sutherland, Hugh B.
- SKERMER, N. A. Discussion of Portage Mountain dam, I (Ripley), 139
- SKERMER, N. A. *See* Hillis, S. F.
- SMITH, D. Discussion of Compressibility and crushing of granular soil in anisotropic triaxial compression (Lee & Farhoomand), 96
- SMITH, D. *See* Hillis, S. F.
- SMITH, G. A. *See* Long, D. H.
- STERMAC, A. G., LO, K. Y., and BARSVARY, A. K. The performance of an embankment on a deep deposit of varved clay, 45; reply, 66
- SUTHERLAND, HUGH B., and SINGH, R. B. Resin impregnation of partially saturated compacted clays for thin section studies, 361
- THOMSON, C. D. *See* Quigley, R. M.
- THOMSON, S. Discussion of Compressibility and crushing of granular soil in anisotropic triaxial compression (Lee & Farhoomand), 94
- TOWNSEND, D. L. Discussion of Landslide on the Touloustouc river, Quebec (Conlon), 351

SUBJECT INDEX OF ARTICLES, DISCUSSION, AND RESEARCH NOTES

APPARATUS

- Experience with some vibrating wire instruments (Scott and Kilgour), 100
- Some load tests on drilled cast-in-place concrete caissons (Matich and Kozicki), 367

CLAY AND CLAY MINERALOGY

- Resin impregnation of partially saturated compacted clays for thin section studies (Sutherland and Singh), 361
- The performance of an embankment on a deep deposit of varved clay (Stermac *et al.*), 45

COMPACTION

- Compressibility and crushing of granular soil in anisotropic triaxial compression (Lee and Farhoomand), 68
- Portage Mountain dam, II: Materials (Morgan and Harris), 142
- The uselessness of elephants in compacting till (Meehan), 358

CONSOLIDATION

- Strain energy and behaviour of overconsolidated soils (Brooker), 326

CONSTRUCTION PROCEDURES

- Portage Mountain dam, III: Development of construction control (Low and Lyell, and discussion thereon), 184
- The Manicouagan 2 upstream cofferdam (Conlon and MacDonald), 229

DAMS, SPILLWAYS, EMBANKMENTS

- Design and performance of earthwork and foundations for the Squaw Rapids development (Klohn, and discussion thereon), 244
- Earthquake-resistant design of earth dams (Seed), 1
- Portage Mountain dam, I: An outline of the project (Ripley), 125
- Portage Mountain dam, II: Materials (Morgan and Harris, and discussion thereon), 142
- Portage Mountain dam, III: Development of construction control (Low and Lyell), 184
- Static and seismic behaviour of an earth dam (Finn), 28
- The Manicouagan 2 upstream cofferdam (Conlon and MacDonald), 229
- The performance of an embankment on a deep deposit of varved clay (Stermac *et al.*), 45

EARTH PRESSURE

- Experience with some vibrating wire instruments (Scott and Kilgour), 100

ELASTIC PROPERTIES

- Earthquake-resistant design of earth dams (Seed), 1
- Yielding and flow of sand in triaxial compression (Porooshasb *et al.*), 376

FAILURES

- Design and performance of earthwork and foundations for the Squaw Rapids development (Klohn), 244
- Earthquake-resistant design of earth dams (Seed), 1

FIELD TESTS

- Discussion on Manicouagan 2 upstream cofferdam (Gadsby), 239
- Some load tests on drilled cast-in-place concrete caissons (Matich and Kozicki), 367
- The performance of an embankment on a deep deposit of varved clay (Stermac *et al.*), 45
- The uselessness of elephants in compacting till (Meehan), 358

FOUNDATIONS

- Design and performance of earthwork and foundations for the Squaw Rapids development (Klohn), 244

FROST ACTION

- Heaving pressure in soils during unidirectional freezing (Penner), 398

GEOLOGY

- Portage Mountain dam, I: An outline of the project (Ripley and Campbell's discussion thereon), 125

LABORATORY TESTS

- Heaving pressure in soils during unidirectional freezing (Penner), 398
- Yielding and flow of sand in triaxial compression (Porooshasb *et al.*), 376

PILES AND PILING

- Discussion of An experimental study of the load distribution in pile groups in sand (Lo, Hanna, Beredugo), 353
- Measurement of pore water pressures adjacent to a driven pile (Hanna), 313
- Some load tests on drilled cast-in-place concrete caissons (Matich and Kozicki), 367

PORE PRESSURE

- Experience with some vibrating wire instruments (Scott and Kilgour), 100
- Measurement of pore water pressures adjacent to a driven pile (Hanna), 313

The performance of an embankment founded on a deep deposit of varved clay (Stermac *et al.*), 45

SEISMIC BEHAVIOUR

Earthquake-resistant design of earth dams (Seed), 1

Static and seismic behaviour of an earth dam (Finn, and discussion thereon), 28

SETTLEMENT

The performance of an embankment founded on a deep deposit of varved clay (Stermac *et al.*), 45

SOIL MECHANICS

Strain energy and behaviour of overconsolidated soils (Brooker), 326

SOIL PROPERTIES

Compressibility and crushing of granular soil in anisotropic compression (Lee and Farhoomand, and discussion thereon), 68

Discussion of Landslide on the Toulmoustou river, Quebec (Townsend), 351; (Crawford and Jarrett), 409

Portage Mountain dam, II: Materials (Morgan and Harris, and discussion thereon), 142

Strain energy and behaviour of overconsolidated soils (Brooker), 326

STABILITY OF SLOPES

Earthquake-resistant design of earth dams (Seed), 1

Static and seismic behaviour of an earth dam (Finn), 28

TEMPERATURE AND THERMAL PROPERTIES

Heaving pressure in soils during unidirectional freezing (Penner), 398

The influence of depth of frost penetration on the frost susceptibility of soils (Osler), 334

THEORETICAL CALCULATIONS

Static and seismic behaviour in an earth dam (Finn, and discussion thereon), 28

The influence of depth of frost penetration on the frost susceptibility of soils (Osler), 334

Yielding and flow of sand in triaxial compression (Porooshasb *et al.*), 376

SUBJECT INDEX OF NEWS ITEMS, ETC.

ANNOUNCEMENTS OF CONFERENCES

Canadian Centennial Conference on Mining and Groundwater Geophysics, 124

Conference on Tunnelling and Shaft Sinking, University of Minnesota (1968), 365

Fourth World Conference on Earthquake Engineering, 415

COURSES

Applications of Finite Elements in Soil Mechanics, MIT, 312

Fifth Harvard Soil Mechanics Program (1968), 365

Research Seminar on Soil Fabric and Related Soil Deformation, University of Western Ontario, 124

PUBLICATIONS

Bibliography on Flow of Granular Materials from Bins, Bunkers and Silos, ESL Bibliography 16, 365

Permafrost Map of Canada (NRC 9769), 414

Proceedings of the Sixth International Conference on Soil Mechanics and Foundation Engineering, 414

Testing Techniques for Rock Mechanics, ASTM STP 402, 312

REVIEWS OF BOOKS

Szechy, *The Art of Tunnelling* (by G. G. Meyerhof), 411

Yong and Warkentin, *Introduction to Soil Behaviour*, 411

Whittard and Bradshaw, eds., *Submarine Geology and Geophysics*, 412
